About

Full Stack developer with experience in Rails and JavaScript, along with React, and frameworks for UI and design. With a business education and experience in operations strategy, I bring practical and creative solutions. Passionate about designing, building, and creating, my preferred art mediums are paper, pencils, wood, and code!

Skills

- Ruby ◆ Ruby on Rails
- SQL (PostgreSQL, SQLite)
- JavaScript ◆ React.js ◆ Redux.js
- WordPress ◆ Shopify ◆ Drupal
- Bootstrap ◆ Semantic UI ◆ Flexbox
- Microsoft Office/G Suite ◆ Adobe CreativeCloud(working proficiency)

---

Projects

CUBICLE - GitHub | Video Demo
A project management dashboard app with intuitive design that allows users to more efficiently manage team members and tasks.
◆ SPA with a Rails backend (RESTful API) and JavaScript frontend. ◆ Implemented complex ActiveRecord associations and related CRUD actions for app functionality. ◆ Utilized Bootstrap for responsive design.

HOME-HUE - GitHub | Video Demo
A practical and fun interior design color inspiration + planning app.
◆ Rails backend (RESTful API) and React frontend. ◆ Implemented React client-side routing. ◆ Leveraged external color detection APIs. ◆ Used Semantic UI framework for layout & design.

GELT- GitHub | Video Demo
A comprehensive personal finance management app for managing accounts and budgeting.
◆ Rails backend, React frontend. ◆ Implemented Redux for state management, React client-side routing, localStorage to store user information client-side. ◆ Used Bootstrap, Flexbox, and basic CSS for design.

Experience

Shine Corp Real Estate Management   Brooklyn, NY
Operations Manager   09/2019 - 02/2020

- Designed and implemented a prioritization system for optimal tenant experience and property owner satisfaction, considerably reducing building violation numbers and improving communication flow.
- Coordinated with company field managers, tenants, private contractors and repairmen, as well as multiple government housing/building departments to maintain steady daily operations.

Executionists   Marina del Rey, CA
Web Development Intern   07/2019 - 08/2019

- Utilized UI prototyping tools as well as Google Slides and Sheets to create wireframes and site hierarchy mapping for a complex web-project in its early development stages.
- Collaborated with team members and reported to company CTO in planning and implementing unique features including subsite admin permissions.

Gan West Preschool   Culver City, CA
Teacher   06/2018 - 06/2019

- Created and followed a curriculum in line with Early Childhood Education philosophies and psychology to promote a safe play-based learning environment for a Pre-K class of 15.
